UMANSHI

Full Stack Developer (MERN)

umanshilodhi023@gmail.com | 8368922162 | LinkedIn | Portfolio.com | Github.com | GFG | LeetCode

Full Stack Developer with **2+ years** of experience across the **MERN stack** (React.js, Next.js, Redux, Node.js, Express.js, MongoDB) and cloud/UI systems (**AWS**, **Figma**), building and restructuring end-to-end web applications. Solved **400+ DSA problems** and focused on delivering efficient, user-centric, production-ready solutions.

SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, C, C++, SQL
- **Front-End Development:** React.js, Next.js, Redux, TailwindCSS, Bootstrap, SolidJS, HTML5, CSS3
- **Back-End & Tools:** Node.js, Express.js, MongoDB, REST APIs, Git, GitHub, GitLab, Postman
- **Other:** UI/UX Prototyping (Figma, Adobe XD), API Integration, Performance Optimization, S3 Bucket, Cloudinary

EXPERTISE

- Full-Stack Web Application Development
- Backend API & CMS Architecture (Node.js, Strapi)
- UI/UX Prototyping & System Design
- Agentic & AI-Driven UI Components
- Performance Optimization & API Integration
- Cross-Platform & Multi-Language Localization

EXPERIENCE

UI/UX Developer **07 Jan 2026 – Present**

Cheil India Pvt. Ltd. (Samsung Group) | Gurugram, Haryana

- Built the UI using **Material UI** and implemented data visualizations with **Chart.js** integrated within the Material UI component library.
- Built a **word cloud** visualization and **geography/demography**-based charts to represent product reach across regions and user segments.
- Created the UI for **Pulse**, a Samsung internal project—led a complete UI restructure and migrated state management to **Redux** for improved scalability and maintainability.
- Researched and evaluated **Strapi** CMS architecture for a serverless web application, working with backend engineers to define dynamic content flow from backend to frontend.
- Designing UI/UX in **Figma** and creating data flow diagrams to visualize system architecture and user journey.
- Contributing to **AWS**-based serverless architecture and selecting optimal services for scalable data storage and performance.
- Built a full-stack application using **Next.js** for the frontend and **Node.js** with **Express.js** for the backend for the Samsung project.
- Developed a visual agentic component using the **Puck** library to dynamically render and manage QR-code-based information displays across **52 countries**, with content tailored by country and language.

Software Engineer **11 Mar 2025 – 30 Dec 2025**

Thoughts2Binary Pvt. Ltd. | Gurugram, Haryana

- Led front-end development for the **Spacetime HR tool**, enhancing advertiser-facing dashboards and improving task workflow efficiency for **100+ users**.
- Designed and implemented a task assignment UI flow, improving developer task allocation efficiency by **50%**.
- Built reusable **React** components to streamline development and reduce duplicate code.
- Contributed to client projects by developing new functionalities and improving UI/UX—including transforming a complex multi-step wizard into a clean, easy-to-navigate accordion interface for better readability and reduced user confusion.

Software Engineer **4 Mar 2024 – 10 Mar 2025**

Agenty Analytics Pvt. Ltd. | Bahadurgarh, Haryana

- Modernized the **DaySchedule** platform by migrating to **Next.js + ShadCN UI**, reducing code complexity by **40%** and improving page load speed by **30%**.
- Migrated **50,000+ users'** data with zero downtime, ensuring full data integrity across systems.
- Contributed to **PriceTree & TicketDesk** projects using **Next.js + Hono.js**, accelerating development by **25%**.
- Spearheaded migration from **jQuery** to **React**, cutting technical debt by **60%** and boosting performance by **35%**.
- Collaborated with backend engineers and tested APIs using **Postman**, identifying and resolving **100+ bugs**.

EDUCATION

B.Tech in Electronics and Communication Engineering – Vaish College of Engineering, Rohtak (2021 – 2024)

- **GPA: 8.4/10**, first position in ECE Department

Diploma in Digital Electronics – Ambedkar Institute of Technology, Delhi (2018 – 2021)

- Scored **83.4%**

ACHIEVEMENTS

- First Position – Electronics & Communication Department
- Scholarship Award – **₹10,000** for academic excellence
- Third Prize – Startup Idea & Technical Club (Vaish College of Engineering)
